

Coach Bows Board Meeting

28th July 2020

Update by Amanda Scriven-Purcell

The Coach Bows Board have agreed the Business Plan which will help Coach Bows Ltd to develop a new strategy to continue to develop the vision for coaching bowls in England.

It will help to focus priorities on the support and benefits for members, the development of courses and ways to innovate coach education.

It is vital that members have their say in the development of coaching. All members have been asked to complete a survey for Coach Bows. This should be completed by 18th August, as the feedback will help to develop our services and products in the future. The survey can be accessed by visiting:

<https://www.surveymonkey.co.uk/r/MJNGNG2>

The business plan was just one of the areas discussed at the Board Meeting. The success of the way Coach Bows adapted to delivering online courses was also acknowledged. The new online version of Adult Safeguarding in Bowls has been an immense success, with every course being delivered at full capacity to date. More dates are being added and more online courses will be coming soon for people to book on to. Course dates and availability can be found by visiting:

<http://www.coachbowls.org/online-courses>

The new merchandise available on the website has also been a huge hit, with a second order having to be made to replace everything! All the merchandise can be found by visiting:

<http://www.coachbowls.org/merchandise>

Approval has also been given to pilot a new, dynamic, and more practical version of the Level 1 and Level 2 Qualifications, using technology to support delivery. If successful, these will be widely rolled out across the country soon.
